 The highly effective combination of argan, wheat germ, sea buckthorn, jojoba and rose oil with natural vitamin E and herbal extracts from ginseng, horsetail, calendula, lavender, green tea and chamomile is a special day care development for the aging challenged skin with elasticity loss and enlarged pores. The natural oils and herbs in this formulation have a high content of omega 3, 6 und 9 fatty acids, vitamins B, C, D, E and K, flavones, flavonoids, glycosides, fruit acid, saponins, minerals and/or trace elements, and thus optimally regulate the cell function and connective tissue properties. The skin cell-like lipids included in the cream basis become integrated into the skin cell membrane and release these active compounds directly into the cells and the surrounding extracellular matrix. The effects of individual compounds in the **Miracle** formulation have been proved in numerous scientific studies:

- ✓ Act astringent, anti-inflammatory and cell-revitalizing
- ✓ Refine large pores and smoothens the skin
- ✓ Donate moisture and improve the skin elasticity
- ✓ Intensively regenerate the skin and improve the skin structure
- ✓ Have strong antioxidant, cleansing and decongestant effects
- ✓ Display stimulating and wound healing properties
- ✓ Effective against skin irritations and infections
