

Smile

HB-F14

Rejuvenating Daily Cream, organic:

50 ml

EAN: 0705632426036

- Biomedical based and highly effective cream formulation for dry, mature and moisture-poor skin
- With natural carrot oil (rich in pro-vitamin A and F), pomegranate seed oil (rich in punnic acid), argan oil (rich in vitamin E), ceramide 3 and hyaluronic acid
- Moisturizing, skin-tightening and wrinkle-smoothing – The perfect prophylaxis against skin aging
- With strong cell-regenerating, soothing and nurturing properties
- Free of mineral and silicone oils, parabens, PEG derivatives, and synthetic dyes and fragrances
- 100% natural, vegan, produced with organic plant oils
- In a handy, airtight spender for an optimal light and air protection and long-term effectiveness

 This novel biomedical formula is a special development for dry, mature and care-needing skin with anti-aging effect. The active compound-rich combination of carrot/carrotin oil (contains plenty of skin-tightening pro-vitamin A and F), pomegranate seed oil (with > 60% punnic acid, a valuable linoleic acid), argan oil (especially rich in natural vitamin E), low molecular weight hyaluronic acid (a real moisturizer), natural phospholipids and ceramide 3 is best suited for the needs of mature, moisture-poor skin. The discreet fragrance combination of natural essential oils from palmarosa, bergamot and sandalwood completes the nurturing properties with their soothing and relaxing effect on body and soul. **Smile** is extremely moisturizing, supports cell regeneration and improves skin elasticity. The skin cell-like lipids included in the cream basis become integrated into the skin cell membrane and release these active compounds directly into the cells and the surrounding extracellular matrix. Due to the biomedical combination design of natural lipids, vitamins and hyaluronic acid **Smile Rejuvenating Daily Cream** is the perfect prophylaxis against skin aging:

- ✓ Acts skin-tightening, wrinkle-smoothing and wrinkle-reducing via an improved skin elasticity
- ✓ Supplies dry skin with plenty of moisture due to a low molecular weight hyaluronic acid that quickly overcomes the skin barrier and improves cell-cell contacts in the subcorneous layer
- ✓ Stimulates skin regeneration and helps preventing early symptoms of skin aging
- ✓ Soothes and relaxes dry and irritable skin and stimulates self-repair mechanisms
- ✓ Reduces discomfort of sensitive, itching and allergic skin and acts revitalizing via an optimal nutrient supply

Application

Before first use of the Airless Spender System pump for several times to activate its function, i.e. until the first portion of cream appears on top of the spender opening. The cream content of the Airless Spender System is best protected against microorganisms and environmental impacts due to the self-closing opening of the spender.

Smile Rejuvenating Daily Cream is recommended for especially dry and moisture-poor skin. Dependent on your need, apply 1-2 sprits of **Smile** onto the cleaned facial skin and massage with light circular movements. Avoid eye contact. **Smile** can be combined with **Extreme Anti-Aging Serum** as a night care.

For skin cleansing and care we recommend the natural facial fluid **Rose Fluid** or **Herbal Fluid** from **P.Glia**  **Health & Beauty Biomedical**.

INCI

Natural organic oils from *Daucus carota**, *Punica granatum**, *Argania spinosa**, *Cymbopogon martinii **, *Citrus bergamia **, *Santalum album **; Aqua, Caprylic/Capric triglyceride°, Dehydroacetic acid**, Benzyl Alcohol**, Hydrogenated phosphatidylcholine°, Butyrospermum parkii butter°, Squalane°, Ceramide 3°, Hyaluronate (600.000 – 1,0 MDa), Tocopherol (natural vitamin E)

* organic, ** Ecocert certified, ° skin cell-like lipids

Precautions

Keep in a dry and cool place (5-25°C). For external use only. Not suitable for consumption. Keep out of the reach of children.

Stability:  12 M *Apply date of use on the provided sticker and paste it onto the bottom of the spender*
